About South End Press

South End Press is a nonprofit, collectively run book publisher with more than 250 titles in print. Since our founding in 1977, we have tried to meet the needs of readers who are exploring, or are already committed to, the politics of radical social change. Our goal is to publish books that encourage critical thinking and constructive action on the key political, cultural, social, economic, and ecological issues shaping life in the United States and in the world. In this way, we hope to give expression to a wide diversity of democratic social movements and to provide an alternative to the products of corporate publishing.

Through the Institute for Social and Cultural Change, South End Press works with other political media projects — Alternative Radio; Speakout, a speakers' bureau; and *Z Magazine* — to expand access to information and critical analysis, movements and to provide an alternative to the products of corporate publishing.

Write or e-mail southend@southendpress.org for a free catalog, or visit our Web site at www.southendpress.org.
